# WELCOME TO THE 2026 WORLD CUP BETTING GUIDE

Welcome to the 2026 World Cup Betting Guide. When I began to put this together the intent was to help the novice bettor understand the game and the trends, teams, and data to hopefully help you enjoy the World Cup while also making some money betting the right spots.

This years version of the World Cup is much different than previous editions. The 2026 World Cup has expanded to **48 teams** from 32 and **12 groups of 4** from 8 groups.

Unlike 2022 where only the Top 2 in each group advanced, this years tournament will have **32 teams** advancing coming from the Top 2 in each group plus the **8 best 3rd place teams**.

This creates some **unique situations** later in the group stages that we'll look to take advantage of.

Enjoy the guide and remember to follow me [@CarmineBiancoWT](#) on X for updates.
